PROJECTS

VehiQL – AI-Powered Car Marketplace 🔗 Group Project Next.js React Prisma Clerk Developed a full-stack car marketplace as part of a team project using Next.js and React. Contributed to implementing car listings, admin workflows, test-drive booking, and responsive UI components. Worked with Prisma for database operations and Clerk for authentication.	04/2026 – 05/2026
NeuraChat – AI Conversational Assistant 🔗 MERN Stack Google Gemini AI Pinecone Socket.IO Developed a full-stack AI chat application using MERN, Google Gemini AI, Socket.IO 🔗, and Pinecone for real-time conversations with long-term memory.	06/2026 – 07/2026
Image Caption Generator 🔗 AI-powered image caption generation An AI-powered web application that generates meaningful and relevant captions for uploaded images. The project uses a modern React frontend and Node.js backend to provide a simple and user-friendly image caption generation experience.	07/2026 – 07/2026

COURSES

Job Ready: AI-Powered Cohort Program Sheryians Coding School 2025 Completed an intensive full-stack web development program focused on the MERN Stack, building scalable web applications, RESTful APIs, authentication, and modern frontend development with React.js and Next.js.	02/2025 – 09/2025 Bhopal
