SUMMARY

B.Tech Computer Science graduate (2026) seeking an entry-level Full-Stack / MERN Stack Developer role. Built full-stack web applications with React.js, Node.js, Express.js, and MongoDB, including a real-time AI chat assistant, an AI-powered pantry and recipe recommendation system, and a full-stack car marketplace built with Next.js.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3

Frontend: React.js, Next.js, React Router, GSAP, Responsive Design

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, Middleware

Databases: MongoDB, Mongoose, Prisma, Pinecone (Vector Database)

AI / APIs: Google Gemini API, LLM Integration, Prompt Engineering, RAG, Spoonacular API

Real-Time: Socket.IO, WebSockets

Auth: JWT, Clerk

Tools: Git, GitHub, Postman, VS Code

Deployment / Cloud: Vercel, Render, AWS EC2

PROJECTS

NeuraChat – Real-Time AI Chat Assistant | Jun 2026 – Jul 2026

MERN Stack, Google Gemini API, Pinecone, Socket.IO

Live: ai-qpt-6f57.onrender.com | GitHub: github.com/Rituraj-Rit

- Developed a full-stack conversational AI assistant using React.js, Node.js, Express.js, and MongoDB, integrating the Google Gemini API for context-aware responses.
- Implemented real-time two-way messaging between client and server using Socket.IO.
- Integrated Pinecone vector database to store and retrieve conversation context, enabling long-term memory across sessions.

FoodSentry – Smart Pantry & Recipe Recommendation System | Aug 2026 – Sep 2026

MERN Stack (React.js, Node.js, Express.js, MongoDB), Spoonacular API, Google Gemini API

Live: foodsentry-smart-pantry-4g8i.vercel.app | GitHub: github.com/Rituraj-Rit/foodsentry-smart-pantry

- Built a full-stack pantry management system using React.js, Node.js, Express.js, and MongoDB to track food items and expiry dates.
- Integrated the Spoonacular API to generate personalized recipe recommendations based on available pantry items.
- Used the Google Gemini API to enhance recipe suggestions, and implemented alerts for items nearing expiry.

VehiQL – Car Marketplace (Group Project) | Apr 2026 – May 2026

Next.js, React, Prisma, Clerk

Live: vehiql-dkrh.onrender.com | GitHub: github.com/Rituraj-Rit/vehiql

- Contributed to a full-stack car marketplace built with Next.js and React as part of a team project.
- Built car listing features, contributed to admin workflows, and implemented test-drive booking functionality.
- Worked with Prisma for database operations and Clerk for authentication.

EDUCATION

Medicaps University, Indore, Madhya Pradesh – B.Tech, Computer Science and Engineering | Aug 2023 – Jun 2026 | CGPA: 6.7/10

Gems Polytechnic College, Aurangabad, Bihar – Diploma in Mechanical Engineering | Jul 2019 – Aug 2022 | CGPA: 7.67/10

TRAINING

Job Ready: AI-Powered Cohort Program, Sheryians Coding School, Bhopal | Feb 2025 – Sep 2025

- Full-stack web development program covering the MERN stack, RESTful APIs, authentication, and React.js and Next.js frontend development.
